

SPAY/NEUTER and WELLNESS PROGRAM PARTICIPATING VETERINARIANS

Wellness Program: Because they support animal adoption, the veterinarians on this list will give your pet his/her first examination and wellness check-up at no cost to you! This applies to the examination only and not to any additional services or products, such as vaccinations, tests, flea control, medications, etc. You must call to make an appointment and tell them that you adopted your pet from Operation Kindness.

Spay/Neuter Program: If the puppy or kitten you adopted from Operation Kindness was too young to be spayed or neutered at the time of adoption, we will notify you by mail when it is time to have the surgery done. Remember: It is a **Texas State Law** that all animals adopted from animal shelters must be spayed or neutered. Violators will be prosecuted.

Please contact one of the veterinarians on this list to arrange for the surgery within 14 days of receiving notice from Operation Kindness. Be sure to give the veterinarian your pet's Operation Kindness ID tag number when scheduling. **Please note: Many veterinarians require or recommend pre- or post-operative procedures that are not covered by Operation Kindness (for example, blood screening, pain meds, etc.). You are responsible for these charges, so be sure to ask the vet what procedures he/she requires for spay/neuter surgery. We cover only the cost of surgery (which includes anesthesia).** If you choose a veterinarian not on our program, you must pay the vet yourself. Operation Kindness will reimburse you only the amount we would pay to a participating veterinarian for the surgery and anesthesia.
