

OPERATION KINDNESS' GUIDE TO BRINGING HOME A NEW CAT

PICK UP SUPPLIES

Litter, a litter box, a scooper, food, treats, toys, bedding and a carrier will prep you for your new feline.

CREATE COMFORTING PHEROMONES

A calming cat spray, which mimics a cat's pheromones, can reduce stress. ***Just don't spray on your cat!***

BRING YOUR CAT HOME IN A CARRIER

A soft blanket with some pheromone spray will keep your cat cozy and secure.

HELP YOUR CAT RELAX ON THE RIDE HOME

Play classical music and make sure your carrier is on the car floor.

CREATE A CAT SANCTUARY

Your cat having a place they can hide, perch, eat, sleep and call their own will help them adjust easier.

INTRODUCE YOUR CAT TO YOUR OTHER PETS

Introduce cats to other pets slowly after they're comfortable. Allow pets to sniff each other first through a door or pet gate.
